DETAILED ACTION

Election/Restriction

1. Applicant's election without traverse of Group I (claims 1-3 and 6) in the response filed January 24, 2001 (paper no. 5) is acknowledged. Claims 4, 5 and 7 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

Information Disclosure Statement

2. The information disclosure statement filed September 6, 2000 (paper no. 2) has been received and the references listed thereon have been considered.

Specification

3. The disclosure is objected to because of the following informalities:
On page 1, line 17, "sued to cut" is unclear and appears to be incorrect.
Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. Claims 1-3 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3724

In claim 1, lines 9-10, the recitation "are capable of crushing said optical fiber without cutting through said protective layer" is vague and indefinite since it appears that the invention is being positively defined in terms of the workpiece which is not part of the claimed invention; in lines 11-12, the recitation "are capable of cutting through said protective layer" is vague and indefinite since it appears that the invention is being positively defined in terms of the workpiece which is not part of the claimed invention.

In claim 2, line 1, "radially inward" is vague and indefinite since it is not clear as to what "radially" refers (e.g., no pivot or rotational movement has been set forth). *←*

In claim 6^X, line 2, "said cutting member" is vague and indefinite as to which cutting member is being referred.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3 and 6, as understood, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gunson, pn 4,048,721.

Art Unit: 3724

Attachment for PTO-948 (Rev. 03/01, or earlier)

6/18/01

The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made other than correction of informalities, unless the examiner has approved the proposed changes.

Timing of Corrections

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
